Reasons For Allowance

The following is an examiner's statement of reasons for allowance: The specific limitations of "the door of the sharing sheet has a shape different from a shape of the aperture, such that the background design is partially exposed when the door is closed" is not anticipated or made obvious over the prior art of record in the examiner's opinion. For example 5,031,935 to D'Andrea teaches having a sharing sheet with an aperture and 5,951,298 to Werzberger teaches having a door for coving an aperture in a sheet to selectively display information/design. However neither of these references teach having the shape of the door different from the aperture such that a portion of the information/design is exposed when the door is in the closed position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
